Drug addiction is the scourge of humanity and drug trafficking is a heinous crime punishable by death. Killing someone or helping someone to kill himself is equal to a crime. The ones who are trafficking and helping such drugs reach each and every corner of the country are

committing a big crime. Most of the people fall a prey to the narcotics sellers due to their ignorance. The youths today are head to toe in drugs. The extent to which this problem has reached is heart rendering. Today kids in the age group of 10-12 have started taking drugs. Today, there is no part of the world that is free from the curse of drug trafficking and drug addiction. Millions of drug addicts, all over the world, are leading miserable lives, between life and death. Alcohol abuse in a complex socio-economic issue that requires a multi-stakeholder and integrated approach towards a drug free society, capture in the National Drug Master Plan.

The disintegration of the old joint family system, absence of parental love and

care in modern families where both parents are working, decline of old religious and moral values etc lead to a rise in the number of drug addicts who take drugs to escape hard realities of life. Drug trafficking is one of the major crime. Killing someone or helping someone to kill himself is equal to a crime. This is what common sense and human sense says. The ones who are trafficking and helping such drugs reach each and every corner of the country are committing a big crime. Drugs and drug dealing is a scourge that can bring down a mature and intelligent society to intolerable levels of depravity. It is better to nip this crime in bud so that our country doesn't follow the horrible western malady.

Creating awareness of dangers of the substance abuse in society and effecting behavioural change are integral parts of the National Drug Master Plan. There should be no leniency when talking about peddlers and pushers who destroy the victim and his kith and kin and put the victim into unalterable habit which will make the individual take to all crimes including murder and rape. If we need to stop this menace from spreading we need harsh steps and stringent punishments. Only love and affection can help the youth from falling into clutches of drugs. Societal control is a necessary along with legal skeleton. Let us develop our Lives, our Communities, and our Identities...Without Drugs."
